

PAYCORE PREPAID CARD MANAGEMENT SOLUTION

**PAYCORE'S PREPAID CARD MANAGEMENT SOLUTION,
OFFERS A COMPREHENSIVE, STAND-ALONE, FLEXIBLE
PREPAID CARD MANAGEMENT SOLUTION**

Prepaid cards, which started out as general purpose prepaid (GNP) cards, have morphed into leader payment segment that rival debit, credit cards and cash. Financial institutions are actively looking for comprehensive, stand-alone, flexible prepaid card management solution for keeping up with customer demand instead of creating ad hoc methods.

PayCore allows you to create own stand-alone EMV prepaid card management infrastructure with special business integrations and contexts. A single proven platform offering end-to-end solution for maintaining all issuing and acquiring functionalities of your prepaid cards with an omni-channel payments experience. The solution is highly flexible for adapting the new market requirements.

PayCore Prepaid Card Management Solution provides a comprehensive management tool that allows to define a prepaid card product with the following definitions;
